

Weekly Citizen

ALBUQUERQUE — JULY 13, 1892

Boston wool market is active and territorial wool is in demand.

No serious accident anywhere in New Mexico marred the festivities on the Fourth.

Ku-Pee and the Mystery club are well come and wanted in this city. Territories Fair week.

This money lender is interested in making money scarce in order to keep up high rates of interest.

In the face of a \$40,000,000 treasury deficit the government is preparing to build six more dams on its waterways.

On a little over two months till the Territorial Fair begins Active work is necessary every day till the exhibition opens.

There is hope even for Peru. The new liberal government has consented for the first time to let Bolivia pass through the custom houses.

All the cases in the United States could be concentrated in Texas without bringing up the density of her population to that of Massachusetts.

Next Saturday The Citizen will be a Socorro county paper, and a long edition will be printed for circulation, advertising the resources of that favored section of New Mexico.

The only paper in this territory controlled by the "lawyer-politicians" is the New Mexican, which is owned and controlled by a ring of federal officials and lawyer politicians.

These men who are telling the people that free裁 of salaried would ruin the country are the same who said that the prosperity of the Sherman law would bring prosperity at once.

Administration organs are very gladful over the fact that the gold reserve is up to the replacement mark, but they aren't saying a word about the fact that it is all borrowed money.

This next election in Kentucky does not take place in August as in the years prior to 1882. Under the new constitution adopted in 1881 the annual state elections occur in November.

With the revival of business and returning prosperity, one by one the old "bonds" are coming to life. Work is about to be resumed on the making of a wharf at Arkansas Pass, Texas.

It appears from statistics gathered by the Railway Gazette that the total new railway mileage constructed in this country during the first six months of the current year will be only about 547 miles.

This great mining and industrial exposition at Denver has been abandoned, capitalists not exhibiting enough interest in the matter to contribute sufficient funds to insure the success of the exposition.

It is now to be brought to decide whether the state of New York had any right to execute Dr. Buchanan. This won't help the doctor, but it will give the lawyers a chance to get what is left of the estate.

The Christian Endeavorers, who are to meet in Boston next week, will find in that city a spirit of puritanism mixed up with forms of sin and vice which are rank enough to make the Pilgrim Fathers turn over in their graves.

Nor to be outdone by the Cuban insurgents who have been confidently awaiting the appearance of their ally, the yellow fever, the government forces propose to send out a train load of poisoned feed for their enemies to capture.

The oldest Freemason in the world is William Salmon, of Penruy Court, South Wales. He is a member of the Royal College of Surgeons of England, having obtained his diploma April 7, 1809. He was born in March, 1780.

During the fiscal year ending June 30, this government borrowed about \$113,000,000 in gold, giving interest bearing bonds therefor. Current receipts were less than current expenditures every month of the year excepting the last, for which month the alleged surplus was less than \$10,000,000.

During the first six months of 1892 as compared with the first six months of 1891, the four western markets show a decrease of 441,000 cattle and 605,000 hogs and an increase of 257,000 sheep. In cattle the only increase is 75,000 at St. Louis. Chicago lost 310,000 cattle, Kansas City 42,000 and Omaha had 167,000 head.

During the first six months of 1892 compared with the first six months of 1891, the four western markets show a decrease of 441,000 cattle and 605,000 hogs and an increase of 257,000 sheep. In cattle the only increase is 75,000 at St. Louis. Chicago lost 310,000 cattle, Kansas City 42,000 and Omaha had 167,000 head.

AMERICAN customs are making great headway in the far east. Even in Formosa, as soon as the governing class came in contact with an institution of the continent they embraced it cheerfully. A bear keeper, pugilist and all-around plug-ugly from San Francisco went to Formosa. As soon as the Formosans had a chance to inspect this exported specimen and see him knock down four men at once, they were charmed with him and made him minister of war.

The fourth at Madrid.

Madrid had a large crowd which celebrated the day in a very peaceful manner, but which got out of it all the fun there was to be had.

The principal events were slow and fast burro races, a 100 yard foot race, pigeon shooting from a trap, won by Clay Green tree shooting, 50 yards off hand, also won by Clay Green tree, after which the balance of the day and thus morning at 1 o'clock was given up to dancing, with the

TO THE NORTH AND SOUTH.

The Denver Republican who says we know well on New Mexican every particular occasion suggests the building of branches of the Santa Fe to White Oaks and the Mogollon country in the following editorial paragraph:

"It is probable that the Santa Fe road will be taken out of the hands of the receivers in the course of a few months. Then the problem of building extensions will come up. What is likely to be the new movement will probably be conservative to excess; there would be nothing in that to prevent the company from building certain branches in New Mexico and Arizona that are greatly needed. The Santa Fe has not been the factor in the development of the southwest which it should have been, and the reason is that more construction has been limited to systematic work with an eye to the future. The whole field for both places that the whole country from the greatest to the smallest town could be developed if they had rail connection. This applies especially to some of the mining camps in the southern part of the territory. The Santa Fe should have built a much White Oaks long ago, and save one from the north to the Mogollon country. The railroad at Silver City helps, but the route is very round about to choose the wagons load between Silver City and the Mogollon or to go west to what of the transportation of mules are. These are mentioned merely by way of illustration. There may be places that need a railroad even more than either of the localities mentioned."

According to the Atkinson Globe the women of that Kansas town threaten to boycott the soda fountain keepers because they do not set up a free lunch. The women say that a glass of soda water costs as much as a glass of beer, with which men are given a free lunch, and that there is no sense in making so much discrimination. The new women of Atkinson evidently overlook the fact that they have the same right as men to buy beer with a free lunch thrown in, and that the alleged discrimination against them is really holding of the sort.

However, if they boycott the soda fountain keepers the latter will probably go bankrupt.

Isabella disposed of her jewels to further the discovery of a new world. Mrs. Stanford pledges her jewels that the youth of the new world may be educated. This is not the peculiarity of the young woman of the new world, however, but the generous, impulsive and heroic act of the noble woman of all ages.

On an estimated democratic convention, business has greatly improved during the past few months, but you begin to note the somewhat important fact that the improvement began almost immediately after it was known that the next congress would have a strong republican majority.

The next election in Kentucky does not take place in August as in the years prior to 1882. Under the new constitution adopted in 1881 the annual state elections occur in November.

As soon as the Formosans had a chance to inspect this exported specimen and see him knock down four men at once, they were charmed with him and made him minister of war.

The fourth at Madrid.

Vander & Vester and Lang & Felt appeared before Judge Thompson, and petitioned for a writ of habeas corpus against the New Mexico board of health. The writ was issued and made returnable on July 6, when the case will come up for final hearing. It will then be decided whether or not the County is to have a physician's certificate in this territory.—Opie.

The fourth at Madrid.

Montreal, July 3.—An accident on the Grand Trunk railroad at Craig's road, near Richmond. Fifteen passengers reported killed, and forty injured.

Montreal, July 3.—Officials of the Grand Trunk road report the number killed in the Craig's road disaster at thirteen, and injured at twenty-nine.

A bridge collapsed.

Alexandria, July 3.—A cannon bugle, now building at Naguanhae by a French firm, collapsed today. Forty workmen were killed.

Chicago grain market.

Chicago, July 3.—Wheat, July, \$1.41; August, \$1.41; Corn, July, 42; Sept., 42; Oct., 43; July, 23; Aug., 24.

Small fox disappearing.

Washington, July 3.—Reports to the surgeon general of the marine hospital service indicate that small fox, which has been quite prevalent at Nogales, Arizona, is disappearing.

For over fifty years.

An old and well-tried remedy.

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, relieves all pain, cures wind and, and is the best remedy for diarrhoea. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. The value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other.

J. W. Gilliam is rejoicing over the arrival of a fine baby boy at his home last night.

The incorporators are Edw. O. Wolcott,

exception of some time spent in witnessing a display of fireworks in the evening.

The prize for the best writer was won by D. J. Jones, and for the best what the dancer by Jimmy Lester.

During the whole day and night there were no unpleasant features, and every one spoke in the highest terms of the manner in which the affair was managed.

Cerrillos Rustler.

They can do it.

The Los Vgasians are to celebrate their 10th anniversary on the 1st of July. What is to be done is to prevent the company from building certain franchises in New Mexico and Arizona that are greatly needed. The Santa Fe has not been the factor in the development of the southwest which it should have been, and the reason is that more construction has been limited to the systematized work of extracting the mineral wealth from the land.
